- **Los Osos Water Resiliency Effort Update.** Staff has been working with Rob Miller, District Engineer, on a preliminary design for a pipeline intertie to the Chorro Valley area. This document represents a significant work effort and is almost complete. On a separate track, staff has been working with the County, State Water Sub-contractors including the City of Morro Bay to discuss water issues and options for additional water supply for the community. Staff will be bringing a report forward by September to review the information and discuss the next steps for the project.

- **Integrated Waste Management Authority (IWMA).** The IWMA has selected a new Executive Director, Peter Cron, to head the organization. Mr. Cron has been part of the local solid waste industry since the mi-1990's. He has worked on both the private and public sides of the industry. Mr. Cron brings an enormous amount of skill and knowledge to the IWMA; we look forward to working with him.

- **Drought Reminder.** We want to remind the community it is still important to pay close attention to your water use, limit your outdoor irrigation and always check for leaks around your home and yard. If you need assistance, please call the office at 805-528-9370.
